## Examination Summary Information

- |                            |                             |                    |
|----------------------------|-----------------------------|--------------------|
| 1 · Cold Agglutinins       | 24 · Dilutions              | 47 · Mononucleosis |
| 2 · Mononucleosis          | 25 · Ag/Ab Reactions        | 48 · Mononucleosis |
| 3 · Radial Immunodiffusion | 26 · Antinuclear Antibody   | 49 · Dilutions     |
| 4 · Ag/Ab Reactions        | 27 · Mononucleosis          | 50 · Syphilis      |
| 5 · Dilutions              | 28 · StrepA Testing         |                    |
| 6 · General Tests          | 29 · Antinuclear Antibody   |                    |
| 7 · Dilutions              | 30 · Antinuclear Antibody   |                    |
| 8 · Dilutions              | 31 · StrepA Testing         |                    |
| 9 · Syphilis               | 32 · Mononucleosis          |                    |
| 10 · Syphilis              | 33 · Mononucleosis          |                    |
| 11 · Dilutions             | 34 · Cryoglobulins          |                    |
| 12 · Mononucleosis         | 35 · Radial Immunodiffusion |                    |
| 13 · Mononucleosis         | 36 · Cryoglobulins          |                    |
| 14 · Flow Cytometry        | 37 · StrepA Testing         |                    |
| 15 · Cryoglobulins         | 38 · Cryoglobulins          |                    |
| 16 · Syphilis              | 39 · Antinuclear Antibody   |                    |
| 17 · Cold Agglutinins      | 40 · Radial Immunodiffusion |                    |
| 18 · Antinuclear Antibody  | 41 · StrepA Testing         |                    |
| 19 · Cryoglobulins         | 42 · Mononucleosis          |                    |
| 20 · Ag/Ab Reactions       | 43 · Syphilis               |                    |
| 21 · StrepA Testing        | 44 · Syphilis               |                    |
| 22 · Cold Agglutinins      | 45 · Dilutions              |                    |
| 23 · ELISA Procedures      | 46 · Syphilis               |                    |
